**Importance:** High

David,

Good morning. We received your memorandum to the SPCMCA in reference to the Article 32 delay request.

Yesterday, we delivered to MAJ Kemkes and placed in the US Mail for you, three DVDs of discovery. These DVDs contain the majority of the unclassified CID case file (BATES 21364 - 36617), including a DVD of native files for certain file types. We are continuing to sort through the remaining information and seek the approvals we must have in order to produce everything that is discoverable. As we have discussed in the past, our intent is to send the information in waves as we receive approvals and not wait until we receive all approvals.

Below is a summary of the acknowledged protective orders we have received. Pursuant to the protective orders, please ensure the information is not shared with any team member until we receive a copy of the signed acknowledgments and initialed (or signed) federal protective orders.

100% - Coombs, Kemkes, Santiago, and Purcell  
Partial - Tooman  
None - All others

Sir,

Thanks for your response. Mr. Lakes was not given a clearance for this case; he already had one. If you want to request that Mr. Struttman be granted a security clearance, you will need to request it in writing and provide justification through the convening authority to the Army G2.

We can make it happen pretty quickly, if the convening authority approves. Please let me know. Thanks.

Caveats: FOUO

Sir,

I apologize for that. The password for this series of discs is "U.S. v. PFC Bradley Manning". Additionally, the files named 22863-23362 and 24363-24862 have a password of "U.S. v. Bradley Manning".

This is a complete oversight on my part. I am writing an SOP for this process right now, so that we do not have this happen again.

"U.S. v. PFC Bradley Manning" is a more secure password, and will be the one required by our SOP.

Thank you bringing it to my attention, and thank you for your patience as I iron out the kinks in this new process.

V/R,

Arthur Ford

Mr. Ford,

No worries. Thank you for responding so quickly. So far I have not had a problem opening any of the files. I have around six more to go. I will let you know if I have any issues.

Best,  
David

David,

Once again, I apologize. We have an awards ceremony that I could not escape.  
I will be calling in 10 min if you are available. Thanks.

David,

I apologize again. I should have known better scheduling a phone call for Friday morning. Lesson learned. Between connectivity issues and the awards ceremony, this morning is proving to be difficult. We are heading to a meeting at 1130 and should be back by 1500. How is 1600?

Ashden

Subject: Computer forensics, US v. Manning

Mister Ford:

Trent Struttman's SSN is 404-25-6274.

I'm sorry I didn't know this earlier, but he will need a security clearance. The Government got one for Mr. Lakes and now one of his employees, Mr. Struttman, will need the same. Please keep me in the loop on this -- paperwork, etc.  
Also, how long do you think it will take for Mr. Struttman to get a security clearance?

Appreciate any feedback, and I apologize for not knowing earlier that Mr. Struttman needs a clearance.

V/R  
CPT Paul Bouchard

**Subject:** Update

David,

Pursuant to our conversation today, below are some updates:

1. You asked about additional classified information being found above the approx 10,000 on BM's personal computer: Yes, much more. It was found on additional media devices that are not USG owned. The items are listed in the unclas case file we produced. MTF on the details of the information from the classified side of the file.
2. We intend on providing your defense experts a sterile laptop computer with Windows 7 for classified information. We intend on providing a location (Ft Meade TDS) and a 5 drawer safe. We also will provide a Lacie 8Tb cube of classified forensic images of all the forensic evidence. We expect them to bring their own encase software and other software forensic tools.
3. We will provide all recordings we have from confinement at the TCF and Quantico in the next wave of discovery, after tomorrow's CD is sent.

Ashden,

1. Can you tell me which media devices (by BATES number) contained the additional information?
2. I will run this by our forensic experts to see if they have any concerns.
3. Sounds good.

Best,  
David

David,

There are multiple media devices that other classified information was found on and I would prefer to wait until we have the final approvals for releasing classified information before identifying the exact items. All the information is inextricably commingled and I do not want to release potentially classified information without the proper authority and through an improper medium.

**Attach:** Eric Lakes CCE.vcf

---

Ashden:

Please read the below e-mail. It is from the Defense's computer forensics expert, Eric Lakes. It lists what he and Trent Struttman (one of his employees) will need to do the computer forensics work.

If need be, maybe we can have a conference call -- me, you, and Eric -- to hash this out.

I read that the Government is considering the Fort Meade TDS Office as space for Mr. Lakes to do some of the work. We do have plenty of space here, so I think it will work.

Please let me know if there are any issues, concerns, etc., with the specs outlined by Mr. Lakes.

My Office number is 301-677-9231 and my cell phone is 915-603-7651.

Thanks,  
Paul

Mr. Lakes:

I need Trent's date of birth and place of birth for his security clearance. Also, Trent can start filling out the form SF-86 as a hard copy so when he get's it in digits it'll be easier for him to complete. Lastly, we're planning a conference call with CPT Fein for tomorrow at 1300. Let me know if this works for you.

Thanks,  
CPT Bouchard

David and Paul,

As you know, we received a list of items and software that Mr. Lakes contends are required for him to effectively assist you (see attached spreadsheet). We looked at these requirements, and vetted them through our expert to determine what software we can provide free of cost. Can you please send us a written request, with justification, that we can use to obtain approval from the CA for the expenditures, as none of this was discussed in your expert witness requests. Thank you.

Paul,

Thank you. We will review these requests this weekend and get back to you by Tuesday on any issues, such as the request should be for the SPCMCA since he owns the case and not the GCMCA.

In order not to have any unnecessary delay, please provide us, ASAP, whatever research you have that shows the convening authority can appoint a Corporation/Company as an expert assistant (along with all its employees) vice only appointing individuals within the Corporation/Company. We have not found a case on point.

Have a good weekend.

Ashden:

Do you really need legal precedent cited in order to appoint Cyber Agents, Inc. and its employees? Reason I ask is, is there any prohibition requesting a corporation as a defense expert assistant? The Government contracts with companies all the time.

Not trying to be a pain for you; just want to know.

Please advise. I'm sure we'll work it out.

Thanks,

Paul

**Subject:** RE: Defense Request for hardware and software

Paul,

We do need some legal precedent to accomplish this request. I absolutely agree that corporations and companies are billed for expert assistance / witnesses; however we did not find any case law that supports the proposition that an entire corporation and all its employees can be appointed to the defense team as expert assistants. We consider the prohibition to exist in the plain language of the rule, which identifies a person and their qualifications and not a corporation.

We are still reviewing the request to ensure all the requirements are met, specifically the fee schedule is clearly outlined.

**Subject:** Re: Defense Request for hardware and software

---

Ashden:

What if I just submit a separate expert request for the appointment of Trent Struttman as an additional defense expert?

I'm sure that the government has had multiple computer forensic experts at CCIU working on this case. Given the amount of information (8 terabytes) and the scope of work, the defense will need the services of an additional representative from Cyber Agents. This additional expert is needed in order to perform the review required in this case, and to avoid any unnecessarily lengthy delays due to the amount of information required to be reviewed.

Please let me know.

Thanks,

Paul

**Subject:** RE: Defense Request for hardware and software

Paul,

At this point, we have no objection to multiple expert assistants to further assist Eric Lakes and anyone else the defense requests. The only issue is whether the convening authority has the power/authority to appoint a company/corporation vice individual employees. We are already working an additional appointment of Trent S along with a reappointment of Eric L.

By the end of today, I will provide you an email with a list of the other information we will either need or recommend changed before we take the request to the SPCMCA.

**Subject:** RE: Defense Request for hardware and software

Paul,

Please see below. If you can send this today we will get it to the convening authority in the next 48 hours.

1. The request should be "to" the Garrison Commander (COL Coffman), not to the CG. The SPCMCA currently owns the case.
2. The subject states that the request is for additional funding, but the request is also to appoint a new defense expert and reappoint Mr. Lakes.
3. Please name the requested experts IAW RCM 703(d). The request does not request a specific expert; it requests a corporation and its employees.
4. The request needs to layout the EXACT fee schedule and other expenses. Currently, the request says that defense needs "\$2,400.00 in additionally [sic] funding to evaluate the data" and "The possibility of additionally [sic] funding at the rate of \$175 per hour for further computer analysis if need be." It is unclear whether the \$2400 is for estimated work which would be billed at \$175/hour or just an additional flat rate. Please provide a concise billing rate and then an estimate of what the initial # of days will cost. We will be able to take this amount to the convening authority and argue that initial cost to be approved. Additionally, without a concise and clear billing schedule, we will not be able to get a contract setup through Contracting.

CPT Fein:

It was good talking to you over the phone. I will get this to you today -- will confirm with Eric Lakes. As we discussed, better we start from scratch and forget that more than a year ago, Eric Lakes was approved for \$5,600.00. Given the volume of data involved in the case, Eric then asked for more money and also the help of one of his employees. Bottom line: Best we start from scratch, especially given that it's a new convening authority as compared to July of last year.

Again, I'll have this product to you today.

V/R

---

Ashden:

The attachment is our new request. I haven't signed it yet -- would like you to see it first.

Pretty simple -- we're asking for Eric and Trent, they bill at \$175.00 per hour per person; they estimate the work to take five days at a cost of \$14,000.00 excluding travel costs.

I have COL Coffman as the SPCCMCA. Is that the correct spelling of his name? Do I need to have his first name?

Let me know what you think. Once finalized, I'll sign and send the final version to you.

Thanks,

Paul

Ashden,

Yes, I explored other options with Dr. Jehle. My preference was to find someone in the Leavenworth area that could more easily work with him and BM. However, there was no one available.

As mentioned in the expert request, the main concern of the defense is that any expert is responsive and has adequate time to devote to the case. Given our track record so far with government employees, it seems that the better course is to find someone that is being paid for his time (versus adding to his daily duties). My guess is that an expert who charges by the hour will not cite other work conflicts as a reason to disengage.

Best,

David

Paul,

Overall- no issues. Some recommendations:  
Changing THRU to Trial Counsel and not SJA. Also, in reference to paragraph 3c, we (counsel for the United States) recommend this COA and you seem to support it along with your experts, this decision is ultimately up to the convening authority. We are going to make this recommendation to the convening authority along with providing him guidance from an IA expert.

Once you send a signed copy, we should be good to go.

Thanks.

Ashden

**Subject:** RE: Manning Discover Issues (UNCLASSIFIED)  
**Signed By:** joshua.tooman@us.army.mil

Classification: UNCLASSIFIED  
Caveats: FOUO

Mr. Ford

I am unable to open the following files, all of which are what is labeled as "Disc 1":

012934-012934  
012935-013161  
013162-013661  
013662-014161  
014162-014661  
014662-015161  
015162-015661  
015662-016161  
016162-016661  
016662-017161  
017162-017661  
017662-018161  
018162-019661  
019662-020152

Each attempt to open one of these files was met with the following error: "A digital ID was used to encrypt this document but no digital ID is present to decrypt it. Make sure your digital ID is properly installed or contact the document author."

Do you have any thoughts on what the hang up may be?

Thanks,  
CPT Tooman

Mr. Struttman,

I am the Security Manager for ODCS, G-2 and have been asked to submit you for a Secret level Security Clearance.

To assist me in initiating the investigation, please complete the information below and return to me at your earliest convenience.

Full Name:  
City and State of birth:  
Work Ph#:  
Secondary Ph#: (i.e. Cell ph)  
Primary email:  
Secondary email:

The Army G-2 is participating in the Army Investigative Enterprise System Program which expedites the processing of PSI's (Personnel Security Investigations) via the PSI Center of Excellence (PSI-CoE). Within a few days, you will receive an email from the PSI-CoE with a link to eQip and instructions for completing the SF-86 online. If you have any questions, please call PSI-CoE call center at 410-278-4194 or DSN 298-4194.

P.S. You must have your fingerprints taken and submitted electronically to OPM within 30 days. Sooner, the better. You can have fingerprints taken at the Pentagon if this location is accessible for you. Please call 703-697-9327 to schedule.

Best regards,  
Larry

Paul,

Trent S. has an investigation request open. He should have received instructions that direct him to input his SF86 information into eQIP through the OPM website. Once he completes that, signs the document, and sends in his fingerprints, we should be able to process everything VERY quickly. Please let us know when those steps are completed so we can move quickly on our end. Thanks and have a good weekend.

---

Mr. TRENT GREGORY STRUTTMANN:

The Personnel Security Investigation Center of Excellence (PSI-CoE) has received a request to begin processing your investigation application. The attachment provides detailed instructions to assist you with completing this process. It is highly recommended that you read these instructions before you begin completing the e-QIP form.

Once you have completed the e-QIP form, you must release it to the PSI-CoE for review. If the form contains errors or is missing required information, it will be returned to you via email for correction. Please ensure that you are monitoring your email throughout this process.

The following must be received within five (5) calendar days.

- e-QIP forms
- Signed Signature Release Pages
- Fingerprints
- 306 and/or Resume (when required)

To get started:

1. Access the e-QIP form at: [www.opm.gov/e-qip/](http://www.opm.gov/e-qip/)

To initially access the e-QIP form you must authenticate your identity. When Question 2 asks for your city of birth use the following spelling: LEXINGTON.

2. Contact your local security office or hiring official to make arrangements to be fingerprinted.

AR 380-67 states that "failure to respond within the time limit prescribed by the requesting organization with the required security forms or refusal to provide or permit access to the relevant information required by this regulation shall result in termination of the individual's security investigation or assignment to sensitive duties utilizing the procedures of paragraph 8-201 or further administrative processing of investigative requirement." Failure to meet this suspense will result in notification to your chain of command.

If you no longer require a background investigation or you cannot comply with these instructions, please have your security manager or hiring official contact the PSI-CoE.

If you have any questions, please call 410-278-4194 or DSN 298-4194 or email us at [imneapgesi5@conus.army.mil](mailto:imneapgesi5@conus.army.mil). The PSI-CoE call center is open between the hours of 0600 and 2400 Monday through Friday. All times are EST.

Documentation required for this investigation request may be faxed to 410-306-3858 or DSN 458-3858 or scanned and e-mailed to [imneapgesi@conus.army.mil](mailto:imneapgesi@conus.army.mil).

Please do not respond to this email, as responses are not monitored.

PSIP Record Number: CLR000000157377  
Email Code: PSIP-0002-FP

Ashden,

Who does Dr. Moulton need to coordinate with in order to obtain travel orders? I believe that MDW should be providing the funding for his TDY. If this is not correct, can you point us in the right direction?  
Thanks.

Best,  
David

---

Mr. Ford,

Yester, I was received three discs labled 036803 - 036803 and opened each without incident. Today, I received the single disc labled 036804 through 042806, but cannot access any of the documents.

When I load the disc, it reads the various files (this takes around two minutes to do as compared to previous discs that only took seconds). After being able to see the contents, I then attempt to open one of the files. The file takes a long time to upload (around five minutes). After uploading, I am then prompted for the password. Once I enter the password, the file starts to download to my computer. Unfortunately, after about ten minutes, it just stops in the middle of the download (files on previous discs would download in a matter of seconds).

I have tried the disc on two separate computers. The first, is a computer that I have never had any problems opening previous discs. The second, is a i7/8GB/1TB speed demon that also could not open the files. Have you done something different with this CD as opposed to previous ones? If not, I will need to have a new CD sent to me.

Best,  
David

Ashden -- just would like to get a situation report as to where we're at.

1. Trent told me he filled out SF86 and eQIP; do let me know any status there.
2. Any issues with our software and hardware requests? Will we get these in time for early September, the target date as to when the Gov't will provide us the classified info?
3. We have a safe at MAJ Kemkes place of work, Fort Myer TDS. Chief Melgar here at Fort Meade informed me she's working to get a safe for my office. Will this second safe just be for the classified docs?
4. Where do you think Eric and Trent will do their computer forensics work, and what are your thoughts about what Eric said regarding the equipment having to run over night?
5. Do you think we're still on track for 1 September with all of the aforementioned?

Any feedback appreciated.

Thanks, Ashden.

Email me or call me anytime.

V/R

Paul

P.S. Still working to get on global e-mail; I'll let you know my new e-mail address once I get it.

**Subject:** RE: Request sitrep from CPT Paul Bouchard  
**Importance:** High

Paul,

Thanks. Sorry I could not call last night. Below are my updates:

1. We should be on track. Did Trent send in his fingerprints and signature card or electronic signature?
2. No issues with the purchasing. Pursuant to the SPCMCA's order dated 10 Aug 11, we are working the purchase request and will have all the material in our office. We will then coordinate through you to get the software to your experts prior to them arriving so they can have their computers ready to go. As a warning, we will likely need them to sign a document that this software is only to be used for the sole purpose of this case and no other purpose based on much of it being from an Army enterprise license.
3. The United States will provide a safe at the Fort Meade TDS office, pursuant to the SPCMCA's directive in his 10 Aug 11 order.
4. Similar to #3, IAW the SPCMCA's 10 Aug 11 order, the forensic work will be conducted at the Fort Meade TDS office. If your experts need to run their computers overnight, then I assume your security experts will let you know that the office/machines must be supervised/monitored the entire time (positive control) because of the classified nature of the information. Please let us know if you need assistance with this given the defense team's security and administrative staff.
5. The goal is still 1 Sep 11; however I owe you, David, and the rest of the team a hard date for planning purposes. In determining this date, we are considering the award of the contract for CyberAgents, final acquisition of all materials needed for the forensic team, and travel planning for the defense for the handover and multi-day explanation. We intend to propose a date NLT Monday COB.

Ashden,

Please see the attached signed protective orders. These protective orders are for members of the defense team. Although none are defense counsel or an "associate, paralegal, or clerical employee involved in the defense of the accused" each is either detailed to or retained by the defense to assist on this case. It is my understanding, that a separate approval for members of the defense team would not be required. Do you concur with this belief, or does the matter need to be raised with COL Coffman?

COL Coffman's order does not seem to include disclosure to defense experts. I am assuming that this is an oversight, and that the defense can share materials with its experts provided the protective orders are signed.

David,

All those on the defense team, including expert consultants and witnesses are included under COL Coffman's order. It was intended and briefed to the COL Coffman that paragraph 2 sub (f), includes "technical or expert services or testimony" for the defense. We do understand the remainder of the sentence states "in the prosecution of the accused" but we considered that statement more broadly to include the prosecution and defense, since the "prosecution of the accused" cannot occur without the defense having access to the information.

---

Mr. TRENT GREGORY STRUTTMANN:

The below information is required to continue processing your background investigation. You were notified via email of the requirement to complete the online electronic form for this investigation. As a reminder, the link to the form is: <http://www.opm.gov/e-qip/>.

In order to continue processing your background investigation, please submit the following information to the PSI-CoE.

**Required Documentation:**

---

**FINGERPRINTS REQUIRED:**

Fingerprint cards- Contact your local security office or hiring official to facilitate

---

AR 380-67 states that "failure to respond within the time limit prescribed by the requesting organization with the required security forms or refusal to provide or permit access to the relevant information required by this regulation shall result in termination of the individual's security investigation or assignment to sensitive duties utilizing the procedures of paragraph 8-201 or further administrative processing of investigative requirement."

If you no longer require a DoD background investigation or you cannot comply with these instructions, please have your security manager contact the PSI CoE.

If you have any questions, please call 410-278-4194 or DSN 298-4194 or email us at [imneapgpsi5@conus.army.mil](mailto:imneapgpsi5@conus.army.mil).

The PSI-CoE call center is open between the hours of 0600 and 2400 Monday through Friday. All times are EST.

Documentation required for this investigation request may be faxed to 410-306-3858 or DSN 458-3858 or scanned and e-mailed to [imneapgpsi@conus.army.mil](mailto:imneapgpsi@conus.army.mil).

Your prompt attention to this matter will be greatly appreciated.

*Please do not respond to this email, as responses are not monitored.*

Ashden:

Please read below. I received this e-mail from Trent this morning.

Let me know if you have any questions.

Thanks.

Paul

Cell: 915-603-7651

Paul,

I contacted the person who took my prints and she said everything went though just fine. She said that the e-mail we received was a standard e-mail sent to all applicants and that we should ignore that because the prints have been submitted. Her name is Nicki Clarke and she can be reached at 1-502 624 1655 if you need to ask her anything.

Respectfully,

Trent

**Subject:** US v. PFC BM Discovery, etc.

David,

Good evening. Below is an update on discovery and other issues:

1. A CD containing the Clausen files (036804-042806) was sent to you (7010-1060-0001-1272-6282) and MAJ Kemkes should have received his copy today or will tomorrow.
2. Last week, I emailed Paul that we should have an answer by COB today on when we expect to have the classified forensic evidence ready for you and your team. For multiple reasons, we will not be able to provide an answer today. I hope to be able to provide an answer by the end of this week to allow you and your experts adequate time to plan for travel.
3. Trent Struttman's clearance is being expeditiously processed. All of his information appears to be received.
4. Contracting has received the CyberAgents contract and is working to award the sole-source contract so we can ensure their payments are preapproved prior to their arrival.
5. We are working on finalizing the acquisition of the defense forensic computer equipment and software. Our intent is to acquire all the material and then send it to your experts (once officially retained by Contracting) so they can preload the software and be ready to go.
6. We are working on finalizing Dr. Moulton's travel arrangements (DTS) so he can freely travel to LVN-CAC.

**Subject:** Classified Computers

MAJ Kemkes,

We are still working on getting three computers to be used by the defense to view, store, and handle classified information, above the resourcing requirements for the forensic computer expert consultants. As you know, there are special rules for the defense handling and using classified information, and the prosecution team is best suited to ensure all rules are followed and to ensure you have equal access to evidence. Therefore, the main office kicked this resourcing issue over to the prosecution team and we are directly working the issue to ensure that you have adequate systems in place to use the classified information you are provided in discovery.

We will have final resolution on which computers will be signed over to the defense prior to the disclosure of any classified information and with adequate time to prepare your offices to receive the equipment and subsequent information.

If you have any questions about this support, please let me know.

Thank you.

Ashden,

I need to reschedule our call. I just received news that a close family member passed away unexpectedly. I am leaving tomorrow to participate in the funeral arrangements. I do not anticipate returning to the office this week. If there is something important for us to discuss, I can make time to talk to you tonight. Otherwise, lets talk sometime early next week.

David

Ashden -- FYI:

Eric and Trent have informed me that September 10-20 would work well for them to do the computer forensics. (They have a case at Fort Bragg slated to end around Sept. 8; they could then drive up here and do the computer forensics for US v. Manning). Do you think this can work?

We do have the Safe for classified data next to my office. When do you think you'll provide us with the classified data and our software and hardware requests? Also, where (what facility) will they do the actual computer forensics work?

Thanks,

Paul

**Subject:** RE: Message from CPT Paul Bouchard

Paul,

Thank you. That will not likely work for three reasons:

1. We are still working on receiving the final approvals from CIDC on the release of their reports. We had to first get the underlying approvals for all the substance evidence and now they are working on the final part.
2. Army contracting is still working on awarding CyberAgents the contract for expert services. That might not be completed by that point.
3. The equipment we ordered is on its way and should be here by the middle of next week. Once we receive it and the contract for CyberAgents is awarded, we will ship it out to CyberAgents for them to get their computers ready for work. We plan on offering this to minimize any delay once they arrive in the area.

As of today, I estimate the last week of September as being the time for us to have all the authorities to turn over the classified evidence to the defense. I do not recommend making non-refundable plans for the last week, but that is our target. I will have better clarity by the middle of next week.

**Subject:** FW: Classified Computers  
**Importance:** High

Dave and MAJ Kemkes,

In addition to the administrative and logistical support the OSJA is providing for all matters unclassified, the prosecution (on behalf of the convening authority) is working to provide the defense team three laptops that will be ready to start processing classified information (please refer to the below email, dated 24 Aug 11).

If you need additional classified information systems or other logistical support for classified information for your case, please provide a written request to the convening authority with justification, so that we can process the request and determine if there are additional assets available and what approvals we must obtain.

Please stress to your entire team that all information and any information system associated with classified information must go through a formal request process and not the normal acquisition processes. The prosecution is ready to assist, once the request is made.

Thank you.

---

Ashden:

E-mailed and just got off the phone with Eric Lakes. Yes. CyberAgents did receive the contract. Eric filled it out and sent it back to a Ms. Sherry Carner who I believe is out of Fort Myer. Eric and Trent are ready to do the work.

NOTE: Eric has trials from October 11-29 and another one on Nov. 13. He told me the last week of September and 1st week of October would work.

Also, I recommend we have another teleconference with Eric to ensure all is good to go before he and Trent travel here, i.e. what facility will the work be done at, is all the hardware and software we the Defense requested in order, etc.

V/R  
Paul

**Importance:** High

David and the Defense Team,

Attached is an accounting of the excludable delay.

-Break-

We have recently learned the page marked BATES 24459 should have been marked classified by the original source, and we produced this page on an unclassified disk on 25 July 2011. Please take the following remedial steps to remove the document from your computer:

1. Destroy the unclassified disk containing the file "Unclassified Discovery Manning (24363-24862).pdf".
2. Permanently destroy or delete any paper or digital copy of the document, or any digital file containing the contents of BATES 24459.
3. Notify Mr. Ford when you have completed 1 & 2.

We will immediately re-produce the documents in their entirety on a new disc so that you may maintain them on your unclassified systems, with a redacted version of the classified document. We will also produce in classified discovery, an original copy of the document.

Please let me know if you have any questions. Thank you.

David and MAJ Kemkes,

Attached is a memorandum outlining the specialized computer equipment we are providing the defense to review classified information and to provide to the civilian forensic computer experts to handle classified information. We intend to deliver the first batch of classified discovery today with the computer equipment. Please let me know if you have any questions.

Paul,

That is incorrect. As we discussed on the phone, we are providing two harddrives and all the software. The three computers we are providing are for the defense team to view classified information and process any information during the process.

---

Ashden,

Thank you. I just wanted to make sure that I am accurately tracking with what was provided by the Government. If I understand you correctly, you have provided the following:

- a) MAJ Kemkes: Gave him two classified CDs (these CDs represent bates number 044865 to 045301) and you provided a new CD 024383-024459 to account for the document that you requested the defense to destroy.
- b) My Office: A CD that is 021364 to 036617. I remember last week we talked about sending one large copy of everything provided so far to the defense, but this CD is obviously not everything. Why is all of this information being provided again? Other than the one document that you asked us to destroy, 02445, are all the other documents identical? Is document 02445 now just a blank document so that the bates numbers for previously provided documents have not changed? You indicate that you have also sent another CD 036618 to 042806. Why is this discovery being sent again? I have already received a replacement CD from Mr. Ford due to the CAC encryption certificate errors.

Best,  
David

David,

Could you please clarify your request. Are you asking to have ALL harddrives that were located in the TSCIF and TOC or only those that were collected by CID and had EnCase forensic images produced? Thank you.

**Subject:** RE: [Suspected SPAM] RE: US v. PFC BM (Discovery)

David,

Below is an explanation of your comments and questions:

a) MAJ Kemkes: You are accurate. 024383-024459 is reproduced on a classified CD so you have a copy of the original documents- no alteration except classified markings.

b) Your Office: We did not send 036618 to 042806 to you, we delivered a copy to Ft. Myer for CW2 Santiago. She could not access the document because they were not encrypted with her certificates. We needed to provide another copy so she could read the documents. 024445, on the unclassified side, is a redacted document. The rest of the documents in that batch (021364 to 036617) are the same. We provided another copy of the file because the original CD needs to be destroyed, since it contained classified information. We want to make sure you have all the documents so we re-sent the same batch with 024445 redacted.

Ashden – FYI and heads up

I need to speak to the individuals listed on the cc line vis-à-vis the Manning case. As you know, we have equal access to these persons as you do with any potential defense witnesses.

I have phone numbers for these individuals and will begin calling them tomorrow, 29 September. My questions will be in the area of computer forensics.

I do not have any contact information – telephone or e-mail address – for Mr. Mark Johnson. He apparently works at the Computer Crimes Investigative Unit at Quantico, VA. Any contact information on Mr. Johnson is greatly appreciated.

Respectfully,

---

Ashden,

I don't see the necessity for Mr. Andrews' request to work through Mr. King. My main concern is that coordinating with Mr. King will unnecessarily add a layer to the entire process. The agents that we want to speak with are stationed in Alaska, Hawaii, Japan, Germany, Iraq, Afghanistan, and throughout CONUS.

Why is it necessary for Mr. King, as the SAC of CCIU, to coordinate interviews for each of these witnesses? If Mr. King wanted to coordinate the interviews of CCIU agents in his office, then this would make somewhat more sense. However, it appears that Mr. Andrews' email is addressing all CID agents. Also, I am troubled by his statement that "Kenny will coordinate the requests, as appropriate." Does this mean that one or more agents will not cooperate with a defense interview request?

Best,  
David

**Subject:** Re: Agent Interviews

David,

I appreciate your concern; however, rather than an unnecessary added layer, CCIU's response seems to be a more efficient means by which to coordinate the interviews of numerous agents. As you accurately stated, agents are stationed worldwide, and coordinating interviews in different time zones, particularly with deployed individuals, can be very time-consuming. SA King will be able to de-conflict schedules for you and ensure the availability of the appropriate individuals at a time convenient for you.

Also, this is still an ongoing national security investigation involving other law enforcement agencies and equities, and classification reviews are still ongoing. It seems much more burdensome and time-consuming for you to ask an agent a question and have to wait for him to determine whether his response is classified or whether the information in his response has been approved for released before he can answer your question.

In his email, SA Andrews refers to the unresolved classification and national security issues. The "as appropriate" language, therefore, likely refers to these concerns and ensuring agent responses do not compromise any information that cannot be released at this point in time.

CCIU is aware of the Article 32, Article 46, and the accused's right of equal access to witnesses; however, given the national security concerns and pending approvals and classification reviews, SA King's coordination seems necessary to ensure all equities are protected while also ensuring your ability to prepare for the Article 32.

Please let me know if you have any further questions or concerns.

---

Ashden,

I am all for efficiency, and I appreciate CCIU's interest in assisting the Defense in coordinating the interviews of numerous agents. I want to make sure that I understand how this process is intended to work. Is SA King simply setting up convenient times for us to interview the requested agents or will he also have some additional role? How is coordinating through SA King going to avoid a situation where an agent needs to determine whether his response is classified or not? How is coordinating through SA King going to ensure that an agent's response does not compromise any information that cannot be released at this point in time?

Best,  
David

**Importance:** High

David,

First, in reference to your questions below, it appears that SA King will be the arbiter on what is protected information and not. I recommend contacting SA King about the agent interview process, as he will best be able to address your specific questions. If you still have any unanswered questions or concerns after talking to him, I will be more than happy to assist in trying to clear up any potential issues.

Additionally, we received the final CCIU forensic reports and started preparing them for approval and production. Over the next two weeks, we should have all the final approvals to turn over the information to you and your team. We should be ready to meet with you and turn over the classified forensic reports on 3-4 November 2011.

We would like to schedule that Thursday and Friday to assist the defense in getting through the voluminous material we are preparing to provide. If the defense is willing to meet, we will be able to orient you to the facts of the case, the layout of the reports, and give a brief overview of the prosecution's case. This should overall speed up the pre-trial process and minimize any future delays.

Please let me know if that date will work. We do not expect to have all the approvals back and the documents ready for release, prior to 3 November.

Thank you.

**Subject:** RE: [Suspected SPAM] RE: Agent Interviews

---

Ashden,

We will contact Mr. King to determine the process that he envisions for being the "arbitrator" for our CID interviews. If we have a problem with this process, we will alert you to the nature of our concerns.

Given the fact that you do not expect to have all of the approvals back and the documents ready for release prior to 3 November, how confident are you in the 3-4 November date? I suggest we schedule our meeting for at least one week later on the 9th and 10th of November or even the 17th and 18th of November. This would allow for the following:

- a) The Government to know for sure that they have the necessary approvals back and documents ready for release;
- b) The defense team (experts and myself) to make the necessary travel arrangements with confidence that our travel plans will not need to be cancelled; and
- c) The defense team to review the majority of the classified discovery prior to the meeting in order to get the most out of the Government's presentation.

Your thoughts?

Best,  
David

David,

Thanks for the phone meeting. Please read below, and let me know if this is an accurate recount:

1. The United States should be ready to turnover the classified forensic evidence by 3 Nov 11. When it is ready, we will work to provide the production to the defense at Fort Myer. Because of the New Developments course that week, you rather meet the following week for the prosecution to discuss the case, as outlined below, with the defense.
2. We will plan on meeting on 8-9 Nov. The defense team will be present, with or without the computer forensic experts and the security experts.
3. Depending on the outcome of the meeting, you might want to have your client flown out to the NCR to sit down and receive the same briefing/explanation of the forensic evidence. That decision will be made after the initial meeting.
4. Assuming the prosecution receives the final classification review, we the approvals to turn over classified information, we will be ready to move immediately into the Article 32 investigation. The prosecution will notify the SPCMCA and the Article 32 will likely be ordered to occur soon after the 8-9 Nov meeting.
5. The prosecution will make available the classified evidence as soon as we receive the approvals and have it prepared to turn-over, even if before 3 Nov.

Thank you.

Ashden,

I agree with your synopsis of our conversation.

If the classified discovery is provided to the defense prior to our meeting, I will come down to look through the information. Additionally, the defense will be ready to conduct the Article 32 as soon as the SPCMCA orders it to begin. Once we receive the witness list from the Article 32 Officer, the defense will submit its witness list.

Best,  
David

David,

Yesterday, we sent to you (tracking # 7010 1060 0001 1274 4019) and delivered to MAJ Kemkes unclassified discovery (BATES: 00045302-00045581). These documents are miscellaneous documents from the CID case file. We also re-delivered the three classified laptops to the TDS office and verified that CW2 Santiago could log on to one of them.

**Subject:** US v. PFC BM (8-9 Nov 11 Meeting)  
**Attachments:** 111025-Proposed Meeting with Defense.pdf

David,

Good evening. Attached is a memorandum that captures our previous discussions and outlines some ground rules for our 8-9 Nov 11 meeting. Although we expect the meeting only to take one day, we are planning for two. The location and time is TBD. Please let me know if you have any questions.

-Break-

Additionally, we are working to receive the final approval for the forensic reports and other classified information. We hope to have this information by 1 Nov. Once we receive the approval, we will start production and have it ready for your team before the end of the week. Please let us know when you would like us to schedule, if at all, your forensic computer experts to travel out to Fort Meade.

---

Ashden,

The terms of our November meeting as proposed in your memorandum are acceptable to the defense. I have attached my signed acknowledgement.

I will be traveling to D.C. on the 7th along with other defense experts to conduct a review, prior to our meeting, of the classified discovery. Please let me know if anything affects the time line for the Government's disclosure of the classified discovery. CPT Bouchard will contact you later this week in regards to the forensic review by Mr. Lakes and Mr. Struttman.

Let me know if you have any questions.

Best,  
David

**Subject:** US v. PFC BM (Defense Supplies)

MAJ Kemkes,

The following items have been purchased/acquired and are ready to be picked up:

1. Five courier bags (3 large, 2 normal)
2. Printer (Dell 3130cn)
3. Shredder (Olympia 671.1CF)
4. Open/Close Magnet
5. Pack of SF-704
6. Courier Cards for you and CW2 Santiago

You may pickup these items at your convenience, please call first so WO1 Parra or SGT Waybright can ensure that someone is here to sign over the supplies/equipment.

v/r,

Ashden

---

Classification: UNCLASSIFIED

Caveats: FOUO

Ashden:

1. When do you think the Defense's computer forensics team (Eric Lakes and Trent Struttman) will be able to do their forensics? I know you said you'll have the classified data for us by Nov. 3-4. Just wondering if there's anything else we'll need for Eric and Trent to do their work.
2. Trent told me Eric already booked their (Eric and Trent's) travel for the meeting on Nov. 8 and possibly the 9<sup>th</sup>. Flights to BWI, hotel, and car rental come out at \$1332.75. They're expecting per diem for food and at cost for gas. Are you okay with this? Again, they booked it in advance.

Thanks,

Paul

Classification: UNCLASSIFIED

Caveats: FOUO

Ashden:

It was good talking to you. Just a few things.

1. Do you foresee Eric and Trent getting on and off post easily for the Nov. 8 meeting? Both Eric and Trent will attend the Nov. 8 meeting, and it is my understanding that the meeting will be either at Fort Belvoir or the Military District of Washington. Eric and Trent will be in a car rental. Do they need a pass to get on base or a CAC equivalent for contractors/visitors? If so, will this take a lot of time? Anyway we can streamline the process? Just want their travel and on/off post access to be efficient.
2. Computer stuff. I Understand that the Government will give us the classified data by the end of next week. What I want to ensure is that the data (apparently a hard drive containing all of the pertinent forensic images) includes ALL of the computers in question. For efficiency and cost-effective purposes, we want Eric and Trent to come to the DC area once so they can do their forensics. I know lead defense counsel, David Coombs, asked for all of the computers in the TSCIF. Will we get that – the forensic images of all of the computers, not just the computer PFC Manning was assigned to?
3. Understand the Defense Travel Issue (DTS) issue. Awaiting your e-mail on that.

Appreciate any feedback.

Thanks,

Paul

All- I am preparing a more detailed email, but this should be a non-issue. All the installations within the National Capital Region allow the public to drive on post, even with rental cars. More importantly, our meeting on the 7th and 8th will not be a on a military installation, but rather at Metro Park near Fort Belvoir. More details to follow.

Thanks!

Ashden

**Subject:** US v. PFC BM (Party, Witness, Expert Travel)  
**Attachments:** ITO Worksheet.pdf

All-

To facilitate the travel prosecution and defense witnesses and experts, the OSJA has put in place procedures that should make travel simple and efficient.

For civilian personnel, not associated with DoD- this will be accomplished through DTS. SGT Feito (prosecution paralegal) is authorized to create travel orders for non-DoD civilians. She must have each traveler's full name, SSN, address, and banking information and other information in the ITO worksheet (attached). SGT Feito will directly assist the individual with reservations for hotel and lodging. Depending on the situation and timing, MDW, OSJA might directly pay for the flight rather than the individual paying through DTS.

For all Military or DoD personnel- SGT Feito needs their SSN and she will X-Orig that individual to the proper funding source and they will plan their travel through DTS.

Bottom line: All travel for experts and witnesses needs to be coordinated through SGT Feito and Mr. Parra. Mr. Parra is responsible to ensure the travel occurs and the individuals are paid. Please notify SGT Feito and Mr. Parra when the travel needs to occur, and they will make it happen!

If you have any questions please contact Mr. Parra (CCed) at 202-685-1975.

Sir,

The short answer to your question is yes. I will attempt to work with them to get them reimbursed for the flight, provided it falls under the guidelines of the JFTR, and ensure that the rest of their TDY is handled in the appropriate manner. Please have them contact me (information below) or my NDEA, SGT Beatriz Feito at (202) 685-1975. If you have any further questions please let me know. Thank you.

All,

I have not heard anything from any of the Defense Forensic Computer Experts in regards to their travel. If their travel orders and travel arrangements are not coordinated a fixed prior to them traveling we cannot ensure that they will be paid in an appropriate manner. It is important that they follow the procedures set in place to ensure proper traveling methods and entitlements are taken care of, and for accountability of funds IAW the JFTR. Thank you.

## INSTRUCTIONS FOR PREPARING AND ARRANGING RECORD OF TRIAL

**USE OF FORM** - Use this form and MCM, 1984, Appendix 14, will be used by the trial counsel and the reporter as a guide to the preparation of the record of trial in general and special court-martial cases in which a verbatim record is prepared. Air Force uses this form and departmental instructions as a guide to the preparation of the record of trial in general and special court-martial cases in which a summarized record is authorized.

Army and Navy use DD Form 491 for records of trial in general and special court-martial cases in which a summarized record is authorized. Inapplicable words of the printed text will be deleted.

**COPIES** - See MCM, 1984, RCM 1103(g). The convening authority may direct the preparation of additional copies.

**ARRANGEMENT** - When forwarded to the appropriate Judge Advocate General or for judge advocate review pursuant to Article 64(a), the record will be arranged and bound with allied papers in the sequence indicated below. Trial counsel is responsible for arranging the record as indicated, except that items 6, 7, and 15e will be inserted by the convening or reviewing authority, as appropriate, and items 10 and 14 will be inserted by either trial counsel or the convening or reviewing authority, whichever has custody of them.

1. Front cover and inside front cover (chronology sheet) of DD Form 490.
2. Judge advocate's review pursuant to Article 64(a), if any.
3. Request of accused for appellate defense counsel, or waiver/withdrawal of appellate rights, if applicable.
4. Briefs of counsel submitted after trial, if any (Article 38(c)).
5. DD Form 494, "Court-Martial Data Sheet."
6. Court-martial orders promulgating the result of trial as to each accused, in 10 copies when the record is verbatim and in 4 copies when it is summarized.
7. When required, signed recommendation of staff judge advocate or legal officer, in duplicate, together with all clemency papers, including clemency recommendations by court members.

8. Matters submitted by the accused pursuant to Article 60 (MCM, 1984, RCM 1105).

9. DD Form 458, "Charge Sheet" (unless included at the point of arraignment in the record).

10. Congressional inquiries and replies, if any.

11. DD Form 457, "Investigating Officer's Report," pursuant to Article 32, if such investigation was conducted, followed by any other papers which accompanied the charges when referred for trial, unless included in the record of trial proper.

12. Advice of staff judge advocate or legal officer, when prepared pursuant to Article 34 or otherwise.

13. Requests by counsel and action of the convening authority taken thereon (e.g., requests concerning delay, witnesses and depositions).

14. Records of former trials.

15. Record of trial in the following order:

- a. Errata sheet, if any.
- b. Index sheet with reverse side containing receipt of accused or defense counsel for copy of record or certificate in lieu of receipt.
- c. Record of proceedings in court, including Article 39(a) sessions, if any.
- d. Authentication sheet, followed by certificate of correction, if any.
- e. Action of convening authority and, if appropriate, action of officer exercising general court-martial jurisdiction.
- f. Exhibits admitted in evidence.
- g. Exhibits not received in evidence. The page of the record of trial where each exhibit was offered and rejected will be noted on the front of each exhibit.
- h. Appellate exhibits, such as proposed instructions, written offers of proof or preliminary evidence (real or documentary), and briefs of counsel submitted at trial.
